

What Is an HSA?

& Why You Should Take Advantage

Receive a TAX-FREE
Contribution from
Victory Capital :

Up to \$2,050 Single | \$3,050 Family

GREAT BENEFITS FOR YOU

Convenience - Paying for expenses from your HSA is as easy as using a debit card.

Choice - Pay for qualified expenses from your HSA or save your HSA money and pay out-of-pocket.

Control - You decide how the money is spent and you have the freedom to keep it if you change jobs or retire.

TRIPLE-TAX SAVINGS

Tax-Free Deposits - Even if you don't itemize deductions you don't pay federal income tax on your contributions.

Tax-Free Earnings - You keep any money you don't spend, and it grows tax-free. No use-it-or-lose-it.

Tax-Free Withdrawals - There's never tax on withdrawals to pay for qualified expenses.

A SMART CHOICE

Congratulations! By enrolling in the HSA-Qualified Consumer-Driven Health Plan you may be eligible to open an HSA & start saving for the future

WHAT IS AN HSA?

- A savings account for health care costs; you don't pay any federal income tax on the money you deposit
- Once you enroll in the HSA-qualified CDHP, you deposit money into your HSA so it's there to pay qualified medical expenses
- When you use your HSA to pay for qualified medical expenses, you don't pay income tax on the money you withdraw

YOU CAN INVEST IT

- Once your balance reaches the required minimum, you can begin investing in mutual funds
- If you earn money on your investments, you don't pay income tax on that money either

IT'S BETTER THAN A FLEXIBLE SPENDING ACCOUNT (FSA)

- Unlike an FSA, your savings grow from year to year; there's no "use it or lose it" rule
- The money in your HSA is your money to keep
- Roll-over money every year to save for the future

WHY HAVE AN HSA?

- It's easy to use your debit card to pay your qualified expenses
- Like a traditional plan, your CDHP health insurance pays the providers directly once you have met your deductible

BUILD YOUR NEST EGG

After age 65, you may use your HSA to pay for any expense without a penalty. You'll only pay regular income tax on your withdrawal to pay for non-eligible expenses. Use your HSA for eligible expenses & never pay taxes!

DOES AN HSA FIT YOUR LIFESTYLE?

Age 42, Family Coverage - Bob

With the money that my employer puts into the HSA it was the right choice to select the HSA-qualified CDHP plan. We usually have some pretty high bills for regular medications, but the employer HSA money covers a lot of that anyway. So, between the lower premium cost, the money automatically put in the account, and tax savings on what we put in, we come out ahead.

Age 26, Single Coverage - Cindy

I'm just starting out and I don't have a lot of extra money to spend so I picked the HSA-qualified CDHP plan since it was cheaper. I probably would not have enrolled in a health plan at all, but the cost was pretty low, so I figured it was the right thing to do.

Age 56, Family Coverage - Annette

My husband and I are in our fifties and see retirement on the horizon. We're both blessed with good health so we didn't feel like we needed to buy a lot of insurance we wouldn't use. We plan to put as much as we can into our HSA, so we have it in retirement. With an HSA you have a lot of flexibility which is good since you never know what might happen.

HSA

ARE YOU ELIGIBLE?

VCM is pleased to offer the HSA as a savings option when you elect the HSA-qualified Core or Basic Medical Plan. However, the federal government regulates who is eligible for the account. So please review these rules carefully.

- You must elect the HSA-qualified Core or Basic Medical Plan plan to qualify to open an HSA
- You cannot be enrolled in Medicare. If you are enrolled in any part of Medicare, then you are not eligible to open an HSA. However, if you have already opened an HSA before you enrolled in Medicare, then you can use the money in your HSA, but you are not allowed to contribute any more money to your HSA
- You cannot be covered under Tricare, and cannot have received any health benefits from the Veterans Administration or one of their facilities, including prescription drugs, in the three months prior to opening your HSA
- You must not have an FSA or be covered under any other medical insurance, such as a spouse's plan, unless the other coverage is also a special HSA-qualified medical insurance plan
- You must not be claimed as a dependent on another person's tax return

USE YOUR HSA WISELY

The money saved in your HSA is intended to be used for qualified medical expenses (as defined by the IRS) or saved for future qualified medical expenses. In order to avoid extra taxes and tax penalties, you should only use the money to pay for qualified medical expenses, unless you are over age 65.

The list of qualified medical expenses is extensive and includes vision and dental services. You can find a complete list in [IRS Publication 502](#).

WHAT IF I HAVE A FLEXIBLE SPENDING ACCOUNT (FSA)?

Being enrolled in a medical FSA (either yours or your spouse's) prevents you from being eligible for the tax benefits of an HSA. A Dependent Care or Limited FSA has no impact on HSA eligibility.
